

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of :
Andreas SEWING et al. : Group Art Unit: 1616
Serial No.: 09/885,287 : Examiner: Gollamudi S
Filed: June 21, 2001 :

For: COATING FOR METALLIC IMPLANT MATERIALS

Response to Restriction Requirement

Assistant Commissioner for Patents
Washington, D.C. 20231

SIR:

Applicants elect Group 1, Claims 1-10 and 21 with traverse. The restriction is traversed on the grounds that, e.g., a search of all the claims would not be an undue burden since the claims in the application all relate to bone analogous coatings for metallic implants. Thus, the searches would comprise extensive overlapping subject matter. If the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions. See, M.P.E.P. 803. Accordingly, withdrawal of the restriction is requested.

In any case, Applicant intends to request rejoinder of the methods of Group 2, directed to the use of compounds of Group 1, once such compounds are indicated as allowable. See, e.g., M.P.E.P. 821.04, "Rejoinder."

Respectfully submitted,

Brion Heaney, Reg. No. 32,542
Attorney for Applicant(s)

Jennifer Branigan, Reg. No. 40,921
Agent for Applicant(s)
